

IMPORTANT POINTS

As much as it's important for time cards to be handed in on time, it's as important that they are properly filled-in and signed by your supervisor at work. You have in your employment kit a copy of a time card as it should be filled-in. Please refer to this example. If you need further information, please do not hesitate to ask either Jean Beauchamp or Natalie Ferguson.

Some of you are handing in timecards late and some extreme cases almost a month old. This is causing problems for our payroll / accounting department. Our clients also expect to have their invoices in a timely fashion and in order for this to occur, you must hand in your timecards regularly. Furthermore, handing in your timecards on weekly basis means you will receive your pay every week.

All incidents or accidents that happen while at work and because of the work that you are doing have to be reported to LaborTek Immediately **WITHOUT EXCEPTIONS**

EFFECTIVE HOUSEKEEPING

Why every worker should pay attention to keeping the work place safe!

Effective housekeeping safety checks can eliminate some workplace hazards and help get a job done safely. Poor safe keeping/ housekeeping can contribute to accidents by hiding hazards that cause injuries. If the sight of paper, debris, clutter and spills is accepted as normal, then other more serious health and safety hazards may be taken for granted.

Housekeeping is not just cleanliness. It includes keeping work areas neat and orderly; maintaining halls and floors free of slips and trip hazards; and removing of waste materials (e.g., paper, cardboard) and other fire hazards from work areas. It also requires paying attention to important details such as the layout of the whole workplace, aisle marking, the adequacy of storage facilities, and maintenance. Good housekeeping is also a basic part of accident and fire prevention.

Why is this so important?

Poor housekeeping can be a cause of accidents, such as:

- tripping over loose objects on floors, stairs and

platforms

- being hit by falling objects
- slipping on greasy, wet or dirty surfaces
- striking against projecting, poorly stacked items or misplaced material
- cutting, puncturing, or tearing the skin of hands or other parts of the body on projecting nails, wire or steel strapping

To avoid these hazards, a workplace must "maintain" order throughout a workday. Although this effort requires a great deal of management and planning, the benefits are many.

****Work place inspections should be done daily/ weekly/ monthly to ensure a safe work place****

Inspections help prevent incidents, injuries and illnesses. ... Health and safety committees can conduct and monitor this with doing these inspections and addressing all related issues.. Regular workplace inspections are an important part of the overall health and safety program.

What are the benefits of good housekeeping practices?

Effective housekeeping results in:

- reduced handling to ease the flow of materials

- fewer tripping and slipping accidents in clutter-free and spill-free work areas
- decreased fire hazards
- lower worker exposures to hazardous substances (e.g. dusts, vapours)
- better control of tools and materials, including inventory and supplies
- more efficient equipment cleanup and maintenance
- better hygienic conditions leading to improved health
- more effective use of space
- reduced property damage by improving preventive maintenance
- less janitorial work
- improved morale
- improved productivity (tools and materials will be easy to find)
